Serial numbers: SWR120-2026-10143

Site: hangar-seven

Shift note

Quick one - SWR-120 was down for part of the shift, see below.

Observations

- Recovery tank smelled bad at the end of the run, probably not rinsed properly yesterday.
- Noticed a rattle from the deck when reversing. Goes away at low speed.
- Display flickered once at startup, came back fine.

Actions taken

- Logged it with the service desk, reference on the whiteboard.
- Nothing done, ran out of shift. Leaving it as found.

Outstanding

- Wants a filter check before the next long run.
- Please confirm the wear limit before changing anything, I am going from memory.

S. Petrov. Back Thursday.
